

Plastic MGB Ltd was established in 2005 and based in Guangdong, China. The parent company of Plastic MGB is a major wheel & caster manufacturer that caters to diverse industries and application. Over the years, we have won over many customers from the waste container industry with our high quality products, on time delivery and competitive pricing. As an extension of our one stop service, we have expanded our product range to include key accessories such as axle, caster, lock, screw/nut and other customized products.

We aim to be the preferred supplier to the waste container industry through continues innovations in our product offering and competitive pricing. We want to be the world market leader in waste container accessories manufacturing and will always stay relevant through close understanding of the needs and demand of the waste container industry as it evolves over time.
